

January 5, 2018

Dear Prospective Judge,

I hope this year finds you in good health and good spirits anticipating the upcoming 2018 Montgomery County Science Fair.

This year's competition will be held at the Floy Lewis Bakes Center at Ursinus College. Soon the many talented students of Montgomery County will be presenting the results of their hard work at the Montgomery County Research Competition. The competition provides talented young scientists a forum to display their work and receive the recognition they deserve. As a judge you enable us to select the best projects for further competitions. In addition, you provide them with a unique opportunity to meet and interact with professionals who share their interest in science.

If you are able to serve as a judge for this year's competition or know of someone else, please use our online registration process. You will find the registration form at:

<http://www.feith.com/mcsrc/judges> **Note: There is no team category this year. Teams will still compete, but they will do so in the science categories.**

**Date: Wednesday, March 7, 2018**

**Place: Ursinus (Fieldhouse)**

**Times:**

**Division A-D (high school)**

7:30 - 8:45 AM Project Preview

8:45 AM Judges Meeting

9 – 12:00 Judging

**Division E (middle school)**

12 – 1:15 Project Preview

1: 15 PM Judges Meeting

1:30 – 5:00 PM Judging

As you can see there are two sessions, the morning and afternoon. Although it is possible to judge only one of these sessions, we encourage you to stay for the day. A continental breakfast will be available for all morning judges and lunch will be provided for both morning and afternoon judges (11:30 AM – 1:00 PM).

I will make an effort to confirm with each person, your acceptance as a judge. But if you don't hear from me and **IF YOU HAVE REGISTERED, ASSUME I RECEIVED IT.** And please just show up at the fair! Even if I did not get your registration, WE CAN USE YOU! We are always in need of good judges.

*In fact, if you know of anyone in any science, math, computer or engineering field; or a teacher in any of these areas – pass this information along to them. The more judges the better.*

Sincerely,

Harry Anselmo
